

# Dang Hyeona

## Developer instructor connecting practice and coaching

I connect development experience with coaching so learners build projects.  
I cover project work, career materials, and collaboration.

## | Teaching Activities Total 10

2025.09 - 2027.08

### ICT Complex expert mentor

National ICT Complex | SW development and developer career fields

- Supported project direction setting and developer career consultation

2025.11

### Open online lecture

SW-centered universities | For juniors aspiring to become software developers

- Planned and taught a 7-part series on developer growth, learning methods, and career preparation

2025.09

### Industry career talk

Mirae Dongyang University | Designing a developer career

- Shared company selection criteria and growth direction with students in a computer science club

2025.09 - 2025.10

### Career document mentoring

Inje University | Senior industry-academic project students

- Reviewed two teams and guided them to reorganize project experience for resumes and portfolios

2025.03 - 2028.02

### Zerobase Backend School part instructor

Day1 Company (Zerobase) | Basic data structures and algorithms

- Taught backend learners to connect implementation flow with problem-solving approaches

2025.05

### Mini project mentoring

Inje University | University-industry mini project

- Reviewed a five-person team project by deliverable stage and guided design and testing document improvements

2025.01 - 2025.02

### Git toy project mentoring

Inje University | Git collaboration practice for an industry-academic project

- Combined regular sessions with GitHub comments and PR reviews to answer hands-on questions

2024.02 - 2024.03

### Industry mentor

Inje University | SW-centered university project feedback

- Guided improvement directions for student project outcomes and shared developer career perspectives

2023.09

### Alumni talk speaker

Inje University | AI convergence college students

- Shared learning, project, and career preparation experiences from an alumni developer perspective

2021.11

### SSDC 2021 session speaker

Samsung Electronics | Sharing Wireless Business Division, now MX Division, open source contribution experience

- Presented how the SSAFY SSDC project led to an open source contribution in a conference session

## Work & Teaching

Dev. 2 yrs 8 mos · Teaching 4 yrs 5 mos
